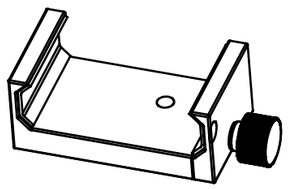
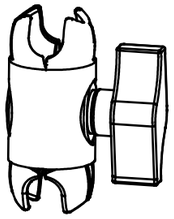
Check list KM-710

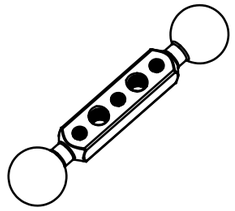


MH-003
Phone Holder

KS-404 Ball Head with
1/4”-20 Male Thread

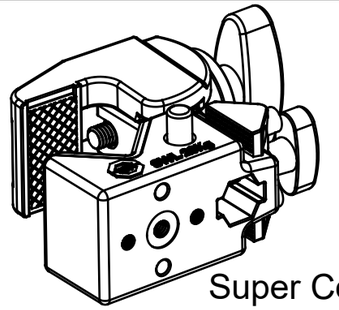


3” Super Knuckle x 2



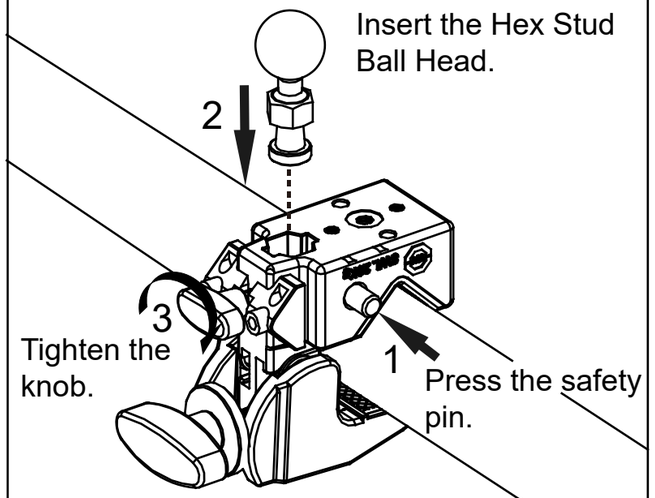
3” Extension Arm

Hex Stud Ball Head



Super Convi Clamp

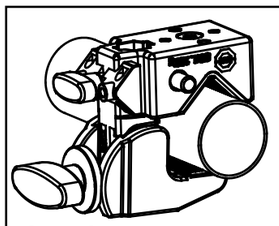
STEP1



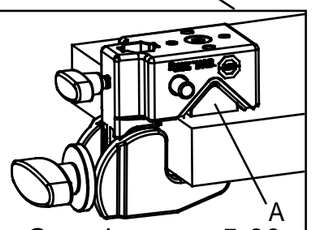
Insert the Hex Stud Ball Head.

Tighten the knob.

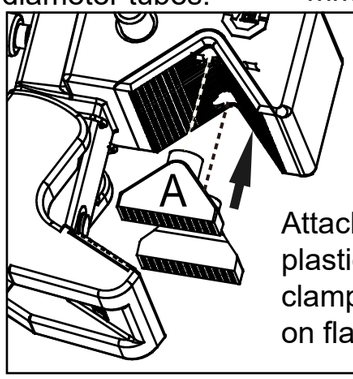
Press the safety pin.



Can fit on 5-51mm diameter tubes.

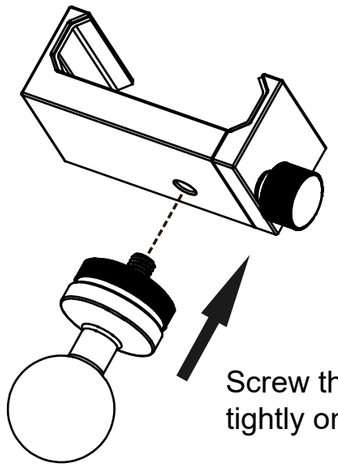


Can clamp on 5-30 mm thick flat boards.



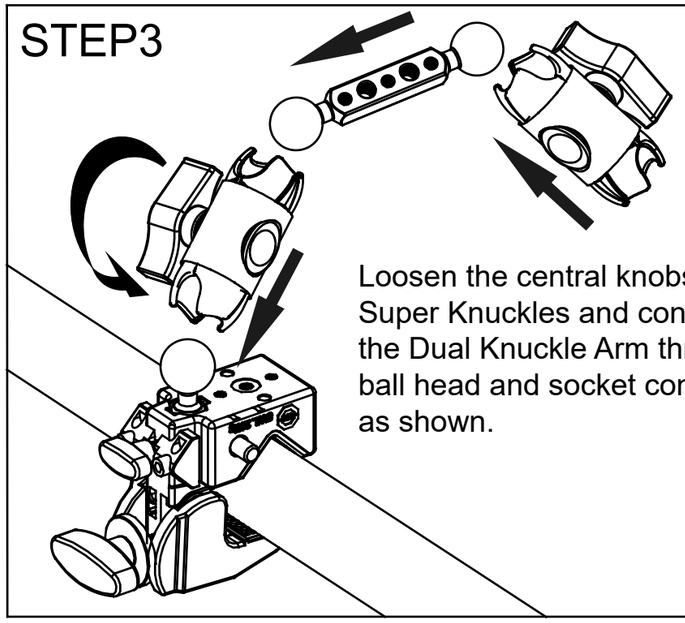
Attach the included plastic saddle to the clamp for mounting on flat boards.

STEP2



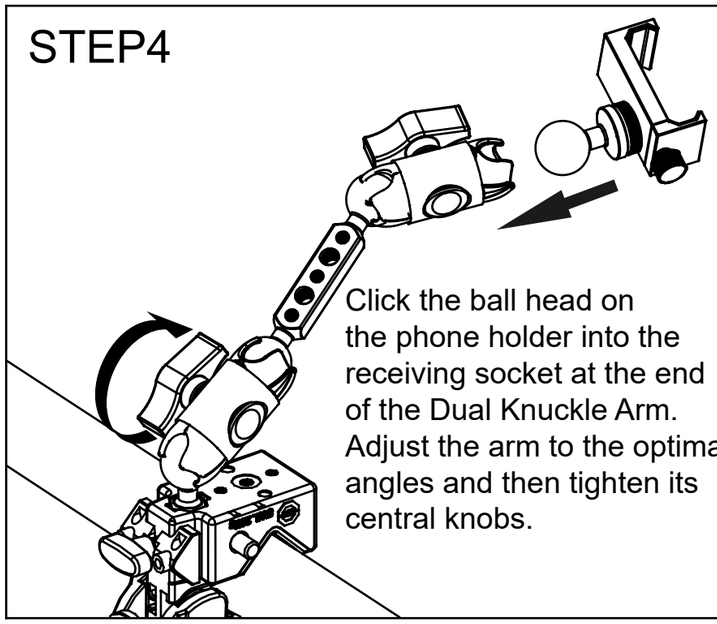
Screw the ball head(KS-404) tightly onto the phone holder

STEP3



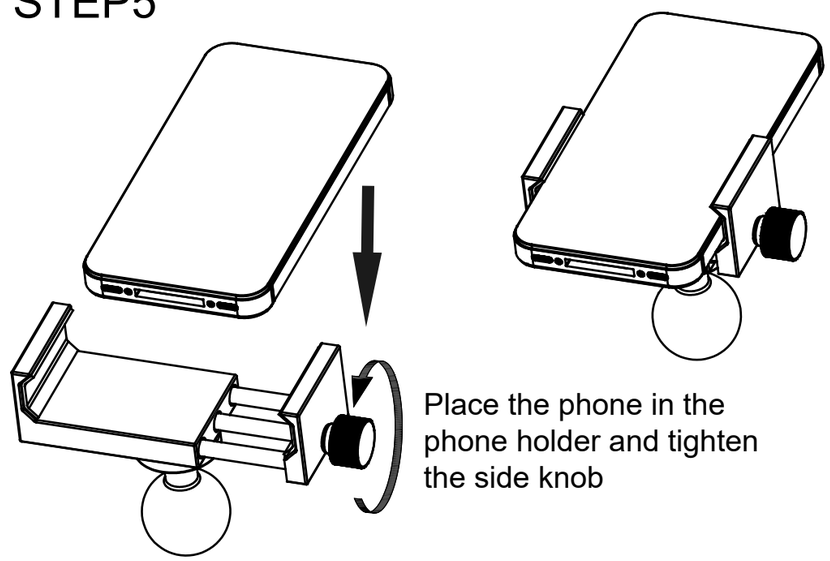
Loosen the central knobs of the Super Knuckles and construct the Dual Knuckle Arm through ball head and socket connections as shown.

STEP4



Click the ball head on the phone holder into the receiving socket at the end of the Dual Knuckle Arm. Adjust the arm to the optimal angles and then tighten its central knobs.

STEP5



Place the phone in the phone holder and tighten the side knob
